

## ROOMAN TECHNOLOGIES – ABOUT US

### About the Program

Rooman Technologies was founded in 1999 in Bangalore by a group of technology enthusiasts who envisioned creating a world-class center for IT training. The founding team focused on hiring top trainers and setting a vision to deliver training that drives employability, instills confidence, and provides industry-valued certifications.

Over the years, Rooman adopted innovative ideas based on emerging global technologies. The organization consistently evolved its infrastructure, expanding modern labs, study rooms, knowledge banks, and collaborative spaces across India.

### Key Achievements

- **1.2M+ Students Empowered**
- **24 Academic Partners**
- **198 Training Centers**
- **Presence in 52 Cities**

Rooman has partnered with government bodies for upskilling and reskilling programs. Today, it offers a wide range of government-supported vocational courses, empowering technicians, operators, and support professionals across India.

Rooman also introduced the **Flipped Classroom Model** for online training and is known as India's only **Omnichannel Training Institute**, with more than 100+ physical centers.

---

### Vision

**Integrate global innovation, technology, and skill to empower people, society, and businesses.**

### Mission

- Deliver high-quality training to help India become the skill capital of the world.
  - Integrate global technologies to create innovative products and solutions.
  - Expand global presence through collaboration and partnerships.
  - Establish a global education campus hosting top universities worldwide.
-

## **Success Roadmap (Highlights)**

### **1999 – *Company Established***

Launched with the vision “We bring Technology to India,” pioneering IT training even before the startup culture emerged.

### **2000 – *Launched MCSA/MCSE & CCNA***

Rooman was the first in India to offer CCNA training on real routers instead of simulators.

### **2001 – *Trained the First Batch of Cyber Cops***

Introduced Cyber Security courses with Checkpoint, ISS & TrendMicro; supported India’s first Cyber Crime Police Station.

### **2002 – *Trained 900 Govt Employees***

Provided IT training under the Bhoomi Project.

### **2003–2008 – *Global Expansion***

Expanded to over 200 franchises across Canada, Sri Lanka, Bahrain, and Dubai.

### **2008 – *IT Services & Staffing Launched***

Maintained IT infrastructure for 1400+ police stations in Karnataka through the “Support Desk”.

### **2009 – *Academia Collaboration***

Partnered with Kuvempu University to launch BSc-IT and MSc-IT (IMS).

### **2011 – *Connected 900 CSC Centers***

Managed infrastructure for 900 Citizen Service Centers for five years.

### **2012 – *Skill Development Mission***

Joined hands with NSDC to skill millions of youth across 12 sectors.

### **2013 – *MHA Project***

Trained and employed 5000+ students from Jammu & Kashmir.

### **2014–2016 – *Aligned with National Skill Mission***

Supported India’s mission to become the global skill capital.

### **2017 – *Global Skill Institutions***

Set up world-class training facilities across 40 Indian cities.

## **2018 – IoT & AI Expansion**

Acquired Preva Systems (Best Startup Award 2016–17) and ventured into emerging tech solutions.

## **2019 & Beyond**

Rooman now operates across multiple verticals:

- IT Certification Training
- IT Services
- Manpower Outsourcing
- Skill-based Training
